SARAH CHEN

Senior Machine Learning Engineer
San Francisco, CA | sarah.chen@email.com | linkedin.com/in/sarahchen

PROFESSIONAL SUMMARY

Results-driven Machine Learning Engineer with 5+ years of experience designing and deploying production ML systems. Expert in Python, TensorFlow, PyTorch, and cloud infrastructure. Passionate about NLP and computer vision applications. Led teams of 4-8 engineers to deliver scalable ML solutions processing millions of records daily. Published researcher with 3 papers in top-tier conferences.

EXPERIENCE

Senior ML Engineer | TechCorp AI Division | 2021 - Present
- Designed and deployed a real-time NLP pipeline processing 2M+ documents daily using BERT and custom transformer architectures on AWS
- Improved model inference latency by 65% through model optimization and TensorRT integration, reducing costs by $180K annually
- Led a team of 6 engineers to build a recommendation system increasing user engagement by 23%
- Implemented CI/CD pipelines for ML model deployment using Docker, Kubernetes, and GitHub Actions
- Developed A/B testing framework for model evaluation across 15+ experiments

ML Engineer | DataDriven Inc. | 2019 - 2021
- Built computer vision models for defect detection achieving 94% accuracy, reducing manual inspection time by 40%
- Developed data pipelines using Apache Spark and Airflow processing 500GB+ daily
- Created interactive dashboards using Plotly and Streamlit for model monitoring
- Implemented feature engineering pipelines using Pandas, NumPy, and Scikit-learn

Junior Data Scientist | Analytics Pro | 2018 - 2019
- Performed statistical analysis and hypothesis testing on customer datasets
- Built predictive models using Random Forest and XGBoost with 87% accuracy
- Automated reporting workflows using Python, saving 15 hours per week
- Collaborated with cross-functional teams to translate business requirements into technical solutions

EDUCATION

M.S. Computer Science (Machine Learning) | Stanford University | 2018
B.S. Mathematics | UC Berkeley | 2016

SKILLS

Python, TensorFlow, PyTorch, Scikit-learn, SQL, Java, C++
Machine Learning, Deep Learning, NLP, Computer Vision, Transformers
Pandas, NumPy, Apache Spark, Airflow, Data Visualization
AWS, Docker, Kubernetes, Git, CI/CD, GitHub Actions
Communication, Leadership, Teamwork, Problem Solving, Agile

CERTIFICATIONS

- AWS Certified Machine Learning Specialty

- Google Professional Machine Learning Engineer

PUBLICATIONS

- "Efficient Transformer Architectures for Document Classification" - ACL 2022
- "Scalable Computer Vision Pipeline for Industrial Inspection" - CVPR 2021
